- Communication & Delivery Excellence: Executive Reporting, Release Management, Transparency, Customer Success

PROFESSIONAL EXPERIENCE

TATA CONSULTANCY SERVICES (TCS)

Technical Project Manager / Senior Scrum Master / Agile Coach / July 2022 – Present

- Lead Agile and DevOps delivery for 20+ cross-functional teams across Retail & E-Commerce domains, improving sprint velocity by 30% and enhancing time-to-market.
- Lead Agile ceremonies (Sprint Planning, Daily Stand-ups, Reviews, Retrospectives, Scrum of Scrums) ensuring collaboration and progress tracking.
- Coordinate project planning, execution, and delivery, bridging communication between design, UX/UI, engineering, QA, and product stakeholders.
- Manage weekly release and maintenance cycles, coordinating with development, QA, and product teams while communicating release updates to business and sales teams.
- Administer Jira projects, boards, and permissions, ensuring smooth sprint workflows and visibility across teams.
- Partner with Product Owners and stakeholders to refine backlogs, prioritize delivery, and align business and technical goals.
- Manage project planning, execution, and release coordination, ensuring timely, quality-driven delivery of SaaS and enterprise software products.
- Oversee program governance, tracking KPIs such as sprint velocity, release quality, and customer satisfaction.
- Champion Agile transformation and servant leadership practices, coaching teams to self-organize, resolve conflicts, and continuously improve.

- Drive AI-based automation in Agile reporting using MS Copilot and GitHub Copilot, reducing manual effort by 25%.
- Technical Leadership: Lead technical teams working with Java Spring Boot and SQL, providing guidance on best practices and optimization to enhance performance and code quality. Collaborate closely with DevOps teams on CI/CD processes and Azure Analytics for data-driven insights.

PROCESSMAP INFOTECH PVT. LTD.

Technical Project Manager / Scrum Master / August 2007 – June 2022

- Managed Agile delivery for enterprise EHS SaaS and digital platforms for Fortune 500 clients, leading distributed teams of developers, designers, and QA professionals.
- Collaborated with cross-functional teams to define sprint goals, remove impediments, and deliver high-value software releases
- Facilitated Scrum ceremonies and promoted Agile practices to improve delivery predictability and transparency.
- Served as Scrum Master for multiple Agile teams across geographies, facilitating Scrum events and fostering a culture of ownership and accountability.
- Administered Jira workflows and Agile dashboards to streamline sprint tracking and enhance visibility for product managers and executives
- Collaborated with Product, Engineering, and QA teams to manage dependencies, risks, and delivery timelines.
- Introduced Agile metrics and dashboards (velocity, lead time, release success rate) to improve transparency and performance tracking.
- Spearheaded legacy modernization and migration to cloud-based, multi-tenant web platforms, cutting operational costs by 40%.
- Mentored team members in Agile principles, stakeholder communication, and delivery discipline.
- Technical Work: Started career as a full stack developer using .NET and SQL Server. Progressed to lead technical teams as Technical Manager and SME of the product, utilizing .NET, SQL Server, SSIS, and SSRS. Worked closely with business stakeholders on feasibility and technical mapping of requirements, developed high-level estimations, and prepared HLD and LLD documents for the team. Collaborated with DevOps on CI/CD pipeline setup and improvements.
